

Diesel Technology Tool List:

“All tools for the 2022-2023 Academic Year will be provided to Diesel Technology students (freshmen & sophomore). Students are not required to purchase tools”.

As far as grant tools, that needs to go through Marty, it was being set up before my hire and I wasn't involved with that.

Students do need to provide some basic PPE:

- **Safety boots/shoes with safety steel or composite toe**
- **Safety glasses (We provide first pair)**
- **Work gloves**
