## Wireless Configuration Guide for Android to Set Up Wireless Access to TSCTUSERS

1. Go to the Wi-Fi menu under Settings on your mobile phone and touch to join the **TSCTUSERS** wireless network.

2. After touching TSCTUSERS, an advanced configuration menu will pop up. Enter **PEAP** for the **EAP method**.

Enter MSCHAP v2 for the Phase 2 authentication.

For the **CA Certificate** make sure to select **Unspecified** or **Don't Validate**. Enter tsct/username under **Identity** (for example if your TSCT network name is jasmith161, enter tsct/jasmith161) and your TSCT password under **Password**. Leave everything else as the default.
